

TRANSPORTATION BAG SMALL For Helicopter Rescue Bag

For the **compact transport** of a helicopter rescue bag under a load hook.

The small, compact transport bag is equipped with **carrying straps** for hanging on the load hook. Two **detachable compression straps** allow the pack size to be further reduced.

The **rescue bag is folded twice** and placed in the transport bag. The bag can be opened quickly and clearly thanks to the all-round, robust zipper.

Made of **tear-proof, air and water impermeable** special Perlon fabric. With all-round zip and two removable compression straps.

Without shoulder strap system.

Storage for

- Helicopter Rescue Bag
- RBS
- Face Protection Shield
- small Accessories

with RBS

detachable compression straps
