

BACKPACK VACUUM MATTRESS EVO

For easy transport of vacuum mattress, Isotherm Layer, Injury Bag LITE and the private equipment!

Depending on the pack size, the RollTop backpack can be quickly and easily minimized or enlarged.

By means of the zippers on the side, a simple filling and a quick removal is guaranteed.

Due to its robust outer material and close shear point, the backpack is suitable for bulky vacuum Mattresses and safe transport in the alpine terrain ideally suited.

- Padded shoulder straps
- Hip belt
- Chest strap
- Lateral fastening loops
