

TRANSPORT BAG TYRmove

The **transport bag TYRmove** in combination with the carrying Kraxe simplifies and facilitates the carrying of bulky and heavy loads.

The transport bag is firmly connected to the Kraxe TYRmove in a few simple steps and provides a secure and stable hold in any position.

Shoulder strap and hip belt of the Kraxe are well padded and serve as protection against pressure points. The V2 carrying system is dimensionally stable and durable. Thus, even with heavy loads and long climbs a back-friendly carrying is possible.

With a volume of **150 l** and the extremely strong **Cordura** fabric in combination with **tarpaulin** fabric, the transport bag is ideal for any use. The two side zippers allow an opening of the entire front and so an easy filling and unloading of the bag.

Art. No.	93728	
Dimensions	Volumen:	150 l
Weight	Total:	1,0 kg
Comments	Supplied without TYRmove (93802)
