

AVALANCHE RESCUE BACKPACK SET

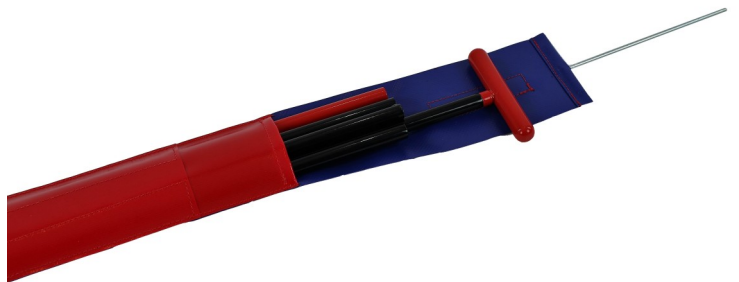

For bases but also ski areas intended for **quick transport by helicopter / quad** to the place of use.

Area of use for **planned searches on avalanche cones**.

Consists of a large, **spacious backpack 150L** with two loops for helicopter / quad transport but also a backpack carrying system.

10 sturdy aluminum shovels with ergonomic wooden handles and T-handles for good power distribution when digging.

10 sets of aluminum probes. Assorted colors in red and black, each section 60cm - / probe parts with a total length of 4.2m - with the possibility of extension. Each can be extended if the probe is to be used for deeper snow depths. **T-handle can be screwed** on at the end for better handling when probing. The probe tip is permanently mounted.

Art. No.	93910	
Dimensions	Length:	120 mm
	Width:	70 mm
Weight	Total:	17 kg
Comments	10 x shovels, 10 x sets alu-probes with a total length of 4,2 m
