

AVALANCHE SEARCH TRAININGFLAG

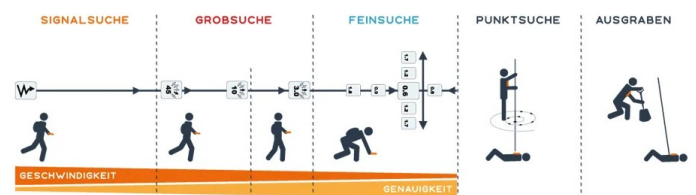

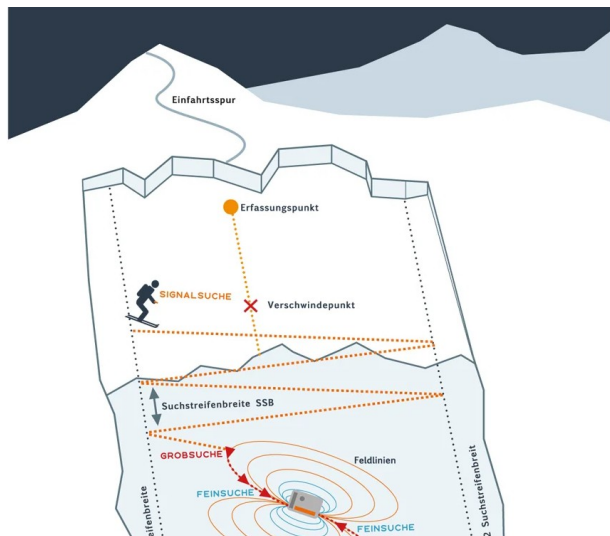

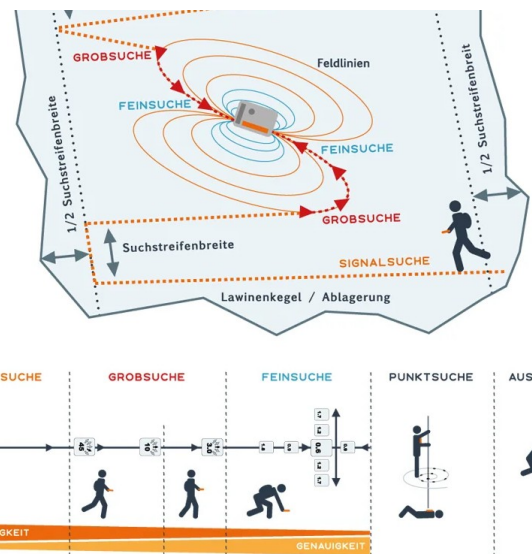

The **avalanche transceiver learning flag** serves as a visual learning aid for the **search strategy** in the event of an avalanche accident.

The search process is outlined schematically using simple graphical representation.

Easily transportable in a backpack as a learning and training tool for mountain rescuers and mountain guides. The light flag fabric can be rolled up and can therefore fit anywhere in your backpack.

From the **signal search** to the **excavation situation**, all stages of the LVS search process are presented and explained.

Art. No.	93931	
Weight	Total app.	250 g
